Cuaderno (Workbook):

For the workbook I do not give any numerical grade, so the signs below do not correspond to the numbers above. You should be getting a check every time I ask for the workbook. At the end of the semester I will count these checks or minuses to increase or decrease your general assignment grade, which is 15% of the final grade.

- The student is doing most of the exercises in every chapter to practice and then he/she corrects them with the answer key and using a different color pen.
- The student has not done exercises for half of a chapter, or the exercises have not been corrected with the answer key and using a different color pen.
- 0 The student has not handed in the workbook, or none of the exercises for a whole chapter have been done.

** If the student is doing all the exercises including the compositions at the end, which I do not require, I give him/her extra points which I record as a: + or ++
